## EXPERIENCE

---

**Software and hardware integration engineer**

April 2024 - present

[CryptoTherm Manufacturing Inc. \(Calgary, AB, Canada\)](#)

- Applying RESTful API endpoints for miners' infrastructure.
- Developing and maintaining business logic of miners' inventory across all the locations.
- Maintaining remote gauges control interface and APIs, handling data analysis.

*Technology Used: C#, ASP.NET, Razor Pages .NET, Python, MySQL, TypeScript, Tailwind, RESTful API, Jira*

## Senior Full Stack Developer

**November 2023 - present**

PetStarz PAWsitive Inc. (Calgary, AB, Canada)

- Developing reliable logic for RESTful API endpoints.
- Improving and refactoring existing code
- Designing scalable microservices solutions, widely implementing Design Patterns and SOLID principles.

*Technology Used: PHP, Laravel, MongoDB, TypeScript, Tailwind, RESTful API, Jira*

## Senior Full Stack Developer

**April 2022 – September 2023**

P4B IT Services SRL

- Designed and developed a medical insurance order report generation application, reducing processing time compared to the previous system, resulting in an average of 500-600 reports generated per day.
- Implemented a microservices architecture, resulting in increased system efficiency and scalability to handle a peak load of 10,000 concurrent users without service degradation.
- Improved code quality by implementing comprehensive unit tests for all projects and adhering to OOP concepts and SOLID principles, leading to a reduction in bug reports.
- Contributed to Agile practices by facilitating sprint planning and stand-up meetings, resulting in a 25% increase in project completion rates within estimated timeframes.

*Technology Used: .NET, C#, Razor Pages, AJAX, JSON, MySQL, SOAP, RESTful API, Jira, AWS cloud*

## Senior Backend Developer / Full Stack Developer

**August 2015 – February 2022**

Autodoc GmbH

- Integrated affiliate marketing services into the CRM system, resulting in a 30% boost in revenue and providing insightful financial analysis reports that aided decision-making processes.
- Increased organic traffic by 40% through the implementation of SEO techniques.
- Developed a CRM platform for a warehouse system, improving operational efficiency by 20% through better logistics management and streamlined logging processes.
- Collaborated closely with UX and QA teams.

*Technology Used: .NET, C#, AJAX, JSON, PHP, Laravel, SOAP, jQuery, React, HTML, MS SQL Server 2016, CSS, MongoDB, ElasticSearch, SQL Server, PostgreSQL, Jira, CI/CD pipelines*

## Full-Stack Team Lead

**May 2013 - August 2015**

CreativSoft SRL

- Developed multilingual websites and custom CRM systems, increasing the client base by 30% due to improved user experience and functionalities.
- Promoted to Team Lead, reducing onboarding time and improving team productivity through efficient training and mentoring of new hires.
- Managed work distribution effectively, resulting in an increase in project completion rate and a reduction in project delivery time.

**Technology Used:** *PHP, Wordpress, Joomla, Magento, AJAX, JSON, OpenCart, Shopify, CodeIgniter, jQuery, HTML, CSS, MySQL*
